

<h2>PVC DUCT TELECOMMUNICATIONS</h2> <p>EF450-017 <small>(Rev3)</small></p>	
--	--

General

Emtelle PVC Telecommunications Duct is designed, manufactured and supplied within an Integrated Management System, incorporating internationally recognised Standards including ISO 9001:2008, ISO 14001:2004 and ISO 18001:2007.

The duct is designed to comply with BS EN 61386 (formerly BS EN 50086-2-4) Industry Standard (450N class).

Duct systems are printed with standard markings, including any additional information required by the customer, to give durability and traceability after installation.

Standard length of a pipe is 3m, 4m or 6m.

The duct is supplied on non-returnable wooden U-frames which are designed to be stored on even, stable ground; they must not be stored more than 3 high. Packaging should be recycled locally.

Colour fastness and UV stability for UK and Ireland only, for 6 months external storage unless otherwise agreed by customer specification.

Physical Characteristics

Raw materials are PVC resin and other additives suitable for the required properties of the finished duct. Standard colours are Green, Grey, Dark Grey, White and Purple. Other colours available upon request.

Standard Duct sizes & available Socket types

Nominal OD / ID	Class	Interference Socket	Ring Seal Socket	Plain Ended
53.9mm / 50mm	450N	Available SL=70mm	-	Available
